Act.6 Forma Greeting

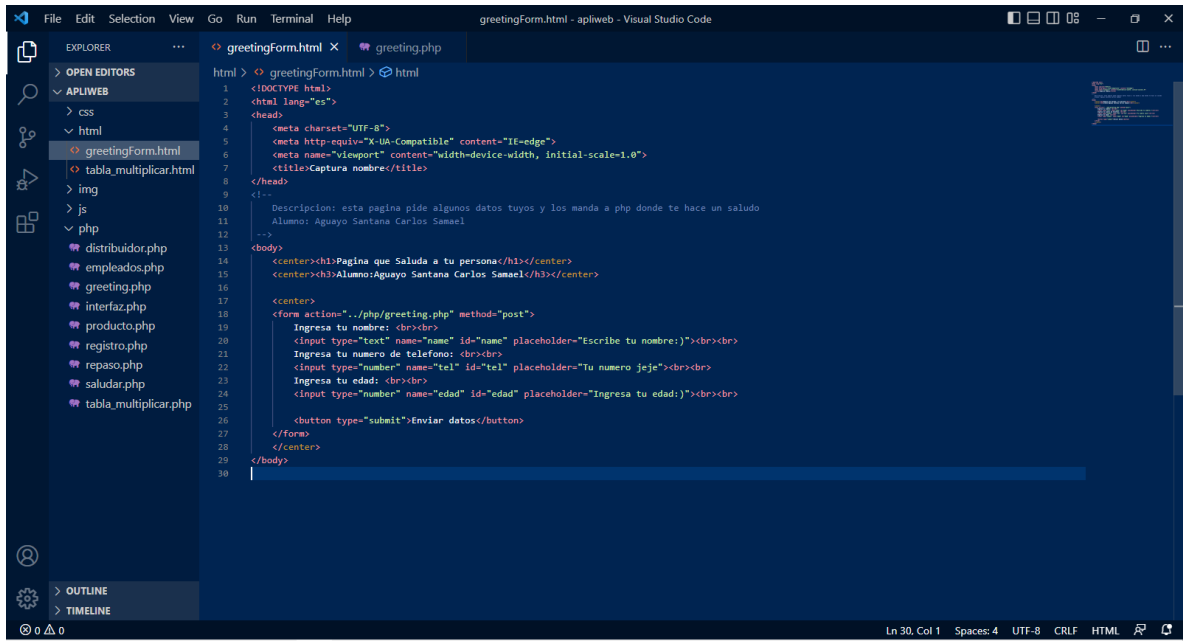

Aguayo Santana Carlos Samael

Quinto semestre; Grupo: PV

Segundo parcial

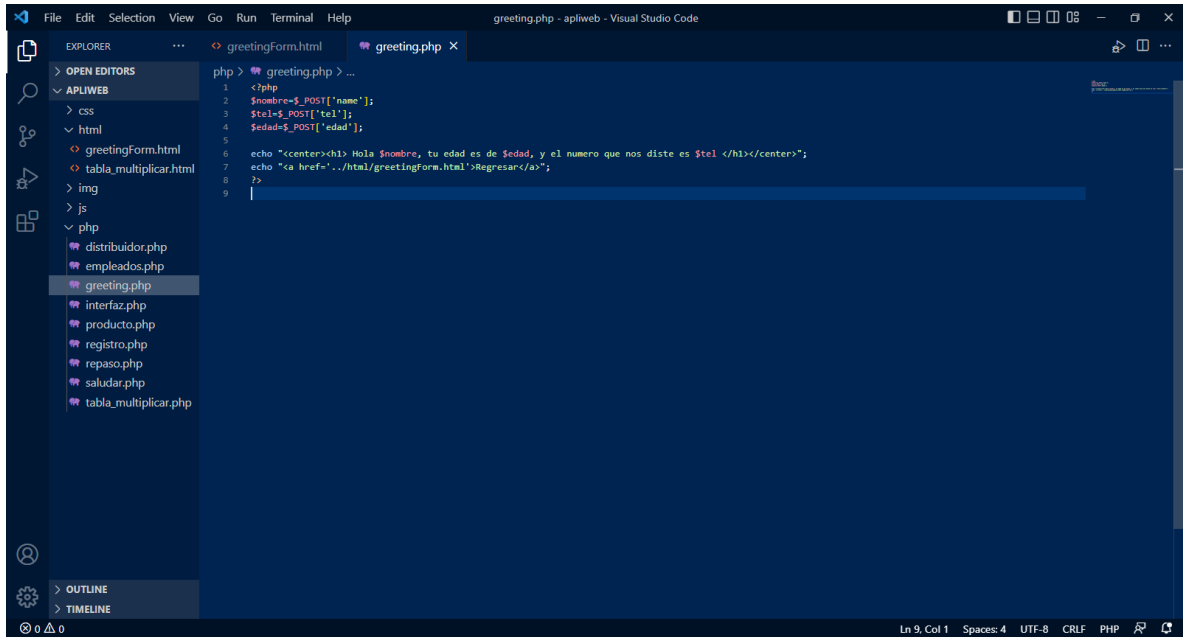

Dolores Hidalgo C.I.N. GTO.

This screenshot shows the Visual Studio Code editor with the file 'greetingForm.html' open. The Explorer sidebar on the left shows a project structure with folders 'css' and 'html', and a 'php' folder containing several files including 'greeting.php'. The main editor area displays the HTML code for 'greetingForm.html'. The code includes a DOCTYPE declaration, meta tags for charset, UA compatibility, and viewport, and a title 'Captura nombre'. The body contains a description, a student name, and a form with input fields for name, phone number, and age, along with a submit button. The status bar at the bottom indicates 'Ln 30, Col 1' and 'Spaces: 4'.

```
1 <!DOCTYPE html>
2 <html lang="es">
3 <head>
4   <meta charset="UTF-8">
5   <meta http-equiv="X-UA-Compatible" content="IE=edge">
6   <meta name="viewport" content="width=device-width, initial-scale=1.0">
7   <title>Captura nombre</title>
8 </head>
9 <!--
10 Descripción: esta pagina pide algunos datos tuyos y los manda a php donde te hace un saludo
11 Alumno: Aguayo Santana Carlos Samael
12 -->
13 <body>
14   <center><h1>Pagina que Saluda a tu persona</h1></center>
15   <center><h3>Alumno: Aguayo Santana Carlos Samael</h3></center>
16
17   <center>
18     <form action="../php/greeting.php" method="post">
19       Ingrese tu nombre: <br><br>
20       <input type="text" name="name" id="name" placeholder="Escribe tu nombre:"><br><br>
21       Ingrese tu numero de telefono: <br><br>
22       <input type="number" name="tel" id="tel" placeholder="tu numero jeje"><br><br>
23       Ingrese tu edad: <br><br>
24       <input type="number" name="edad" id="edad" placeholder="Ingresa tu edad:"><br><br>
25       <button type="submit">Enviar datos</button>
26     </form>
27   </center>
28 </body>
29
30
```

This screenshot shows the Visual Studio Code editor with the file 'greeting.php' open. The Explorer sidebar on the left shows the same project structure as the previous screenshot, with 'greeting.php' now selected. The main editor area displays the PHP code for 'greeting.php'. The code uses the \$_POST superglobal to retrieve the submitted name, phone number, and age, and then echoes a personalized greeting. It also includes a link to 'Regresar' (Return) to the HTML form. The status bar at the bottom indicates 'Ln 9, Col 1' and 'Spaces: 4'.

```
1 <?php
2 $nombre=$_POST['name'];
3 $tel=$_POST['tel'];
4 $edad=$_POST['edad'];
5
6 echo "<center><h1> Hola $nombre, tu edad es de $edad, y el numero que nos diste es $tel </h1></center>";
7 echo "<a href='../html/greetingForm.html'>Regresar</a>";
8 ?>
9
```
